<b>Office Action Summary</b>	Application No. 10/610,939	Applicant(s) FUENTES, CARL	
	Examiner Jeffrey J. Restifo	Art Unit 3618	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

#### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

#### Status

- 1) ☒ Responsive to communication(s) filed on 9/6/05.
- 2a) ☒ This action is **FINAL**.                      2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

## **DETAILED ACTION**

### ***Acknowledgments***

1. Acknowledgment is made of the amendment filed 9/6/05.

### ***Drawings***

2. The drawings were received on 9/6/05. These drawings are approved.

### ***Claim Rejections - 35 USC § 103***

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 15-19 and 21-26 are rejected under 35 U.S.C. 103(a) as being unpatentable over Stucki (US 3,272,581 A) and in further view of Ellman et al. (US 5,518,310 A).

Stucki discloses a workstation comprising variable length dividers 6 and vertical dividers 2 defining spaces able to contain equipment of any type, including medical equipment, wherein the configuration of the compartments can be adjusted to accommodate items of various size, as shown in figures 1-24. Stucki does not disclose the workstation as being used for the medical equipment needs of a particular patient in a hospital. It would have been obvious to one having ordinary skill in the art at the time of the invention to have applied the workstation of Stucki to meet a hospital's need of

storing medical equipment so that the workstation could be adjusted for various sized equipment. The method is inherently performed in the use of the workstation of Stucki for medical equipment.

Stucki does not disclose an opening in the rear for allowing medical cords to pass. Ellman et al. does disclose a medical cart comprising an opening 20 for allowing an electrical cord 42 to pass through the rear of the cart, as shown in figure 4. It would have been obvious to one having ordinary skill in the art at the time of the invention to have provided the workstation of Stucki with the cord opening of Ellman et al. in order to allow an electrical cord to pass through the rear of the workstation plug in the electrical equipment.

3. Claims 27-29 are rejected under 35 U.S.C. 103(a) as being unpatentable over Stucki and Ellman et al., as applied to claim 15 above, and further in view of Thompson et al. (US 6,359,217 B1).

Neither Stucki nor Ellman disclose a rear compartment for housing said wiring. Thompson et al. does disclose a mobile workstation comprising a rear compartment 134 separate from equipment housing areas 138, said rear compartment able to channel wiring 136 down the rear and to a power source, as shown in figures 1-9. It would have been obvious to one having ordinary skill in the art at the time of the invention to have provided the mobile workstation of Stucki, as modified by Ellman et al., with the rear compartment of Thompson et al. in order to protect the wiring from damage.

***Response to Arguments***

4. Applicant's arguments filed 9/6/05 have been fully considered but they are not persuasive. With respect to the applicant's arguments concerning claims 15-19 and 21-26, the added limitation of claim 15 reading "connecting the equipment as needed" is optional language, giving the limitation little patentable weight. Further, the claims do not recite the depth as being variable. The applicant's concept of wire management in cabinets is well known in the art and prevalent in server cabinets, some of which have been cited by the examiner.

***Conclusion***

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

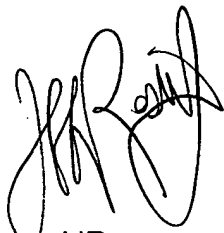

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
